Dear John,

I have begun to receive more information from higher up again. Why it has been rather slack lately I am not sure. It might be all that I have been going through and also it could be due to the energy everyone there has been experiencing. At any rate, the energy is beginning to arrive so let's begin.

Love, Jim

Greetings -- once again as we gather in conference we wish to make known certain knowledge which relates to you and the Foundation. For two months each of you have been allowed to stand somewhat on your own two feet. In this way you have had to search out within yourself what you wished out of life and what you wished to put into life. During this time we did not desert you, but rather as you release the hand of a child who is learning to walk but you stand close to aid if needed, so you have been so protected. We are there walking with you but we are allowing you the freedom to "learn to walk" at your own pace. Though we are maybe pushing each of you a little more than we might others, the only reason for the push, is that each of you must grow and stand independent and yet stand together as one if the foundation is to exist and survive. For this reason we must help make you strong, determined, and clear visioned. In other words, you each need to see the overall picture and purpose of the foundation and each of you must know your place and purpose in it.

Hopefully, much has been learned about each other and about ones' self in these last few days. For now is the time for each of you to come to some conclusions in your life and begin anew. Begin to apply more of your time and energy to the success of the foundation as well as to the success of your life.

Detachment is very important if you are to succeed in your goals, for being able to detach yourself from situations, emotions, and conditions will always give you the clearest picture and aid you in accomplishing what you have set out to do.

We hope much has been learned and is still being learned about detachment at this time, both on a personal level and a group level.

As to the direction of the foundation, we are waiting for each of you to bring into focus more clearly the overall picture we have projected for the foundation. Until each of you see the picture and realize its meaning in your life the forward movement of the foundation is slowed.

Already because of the wavering of some in the foundation to make certain decisions about necessary steps for a forward movement, we have had to force certain situations on you for some kind of continued movement. Otherwise there was a strong threat of stagnation.

We regret having to use such means to accomplish our goals, but at times it is necessary for the greater good. We hope you can understand what we do, we do out of love, not just for each of you but for humanity. And sometimes on a personal level, the path can be somewhat difficult when the greater good of all is concerned. We ask you to bear with us and follow this mission through, and if you do we can only promise one thing, that through your love and devotion to this mission, you will have grown and accomplished much on a personal spiritual level as well as karmically you will have helped humanity through a very difficult time.

Strive for unity within the group, and strive for detachment, but detachment with love. And look deep within for your purpose in life and your place in the foundation and step out on the "Path of Accomplishment." Try not to let personal situations sidetrack you and confuse you. And ask us for an inner knowing and an inner strength. We will be more than glad to give aid as we can but you must ask, otherwise we are not allowed to give aid in some karmic situations. "Ask and you shall be told, Seek and you will find, Knock and the door shall be opened."

Love and light,

Michael & the Foundation Council
